Order of multiplication

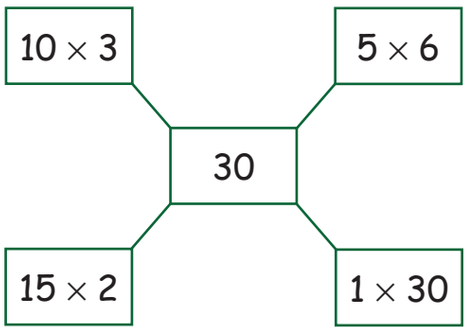

$4 \times 6 = 24 = 6x4$	$796 \times 9 = 7164 = 9 \times 796$
$136 \times 15 = 2040 = 15 \times 136$	$1326 \times 6 = 7956 = 6 \times 1326$
$1000 \times 9 = 9000 = 9 \times 1000$	$26 \times 24 = 624 = 24 \times 26$

The product of two number does not change, if we interchange the order of numbers.

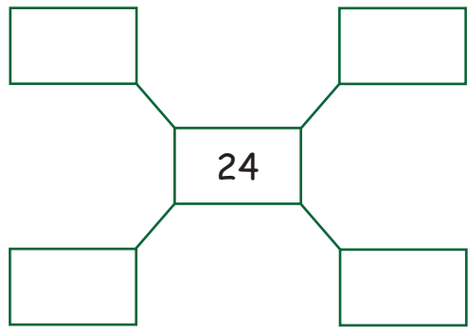

Exercise 2.7

Write the numbers 24, 16 and 36 as the product of two numbers. one is done for you.
