5.2 Relates to 24 hour Clock with respect 12 hour Clock:

24 hour Clock is the most commonly used time notation in the world.

Did you see the display of time in Railways?

Midnight to noon
00:00 - 11:59

24 hour clock does not have a.m. and p.m.

Noon to midnight
12:00 - 23:59

The hour start at zero and go through 23.

Convert 24 hour Clock to 12 Hour Clock.

EXAMPLE

Example: Look at the time on this digital Clock.

hh:mm
20:27

Is it evening?

The clock says 20 hours and 27 minutes

Subtract 12 from 20 hours

	20:00
(-)	12:00
	8:00

There is no change in minutes

➔ The time in 12 - hour Clock is **8:27 p.m.**
