

Activity

1. Make the students to form a model market to display the price list of the things to learn addition and subtraction.
2. Write the value of currency in the paper, make a student to act like a shopkeeper and the other students are like customer, calculate the cost of things to learn addition and subtraction.

EXAMPLE 1

Nandhakumar spent the amount of ₹750 for 10 l petrol. What is the cost of 1 l petrol.

Nandhakumar spent the amount for petrol = ₹750

$\therefore$ Cost for 1 l petrol = ₹750 ÷ 10

= ₹75

EXAMPLE 2

Madhumitha bought 8 sweet packets. If one packet costs ₹65, find the cost of 8 packets.

Cost of one packet = ₹65

$\therefore$ Cost of eight packets = ₹65 × 8

$\therefore$ Cost of eight packets = ₹520
