# LET US LEARN

## The Trick Robot

OPG81

Vicky was a lazy boy. He never did his homework on time. He never kept his things back in the right place. He **pleaded** with his father to buy him a robot to do his work. Vicky's father wanted him to become an active boy. So, he bought him a trick robot. Vicky did not know that it was a trick robot. He was glad to have a robot to do all his work.
