Time

The clock has numbers from 1 to 12 and three hands.

The shorter hand is **Hour hand.**
The longer hand is **Minutes hand.**
Red color hand is **Seconds hand.**

Activity

Make the students stand in a circle. Give a model clock to one of them. When the teacher signals they have to pass the clock among them. When the teacher signals again they have to stop passing the clock. The student who has the clock should position the minute and hour hand to show the time said by the teacher. Appreciate the student who has done correctly and continue the game.
