5. Taking Care of Mouth and Teeth

- Change toothbrush once in every three months.
- Avoid sticky food.
- Brush twice a day. (After getting up and before going to bed)
- Rinse your mouth with water every time after you eat.

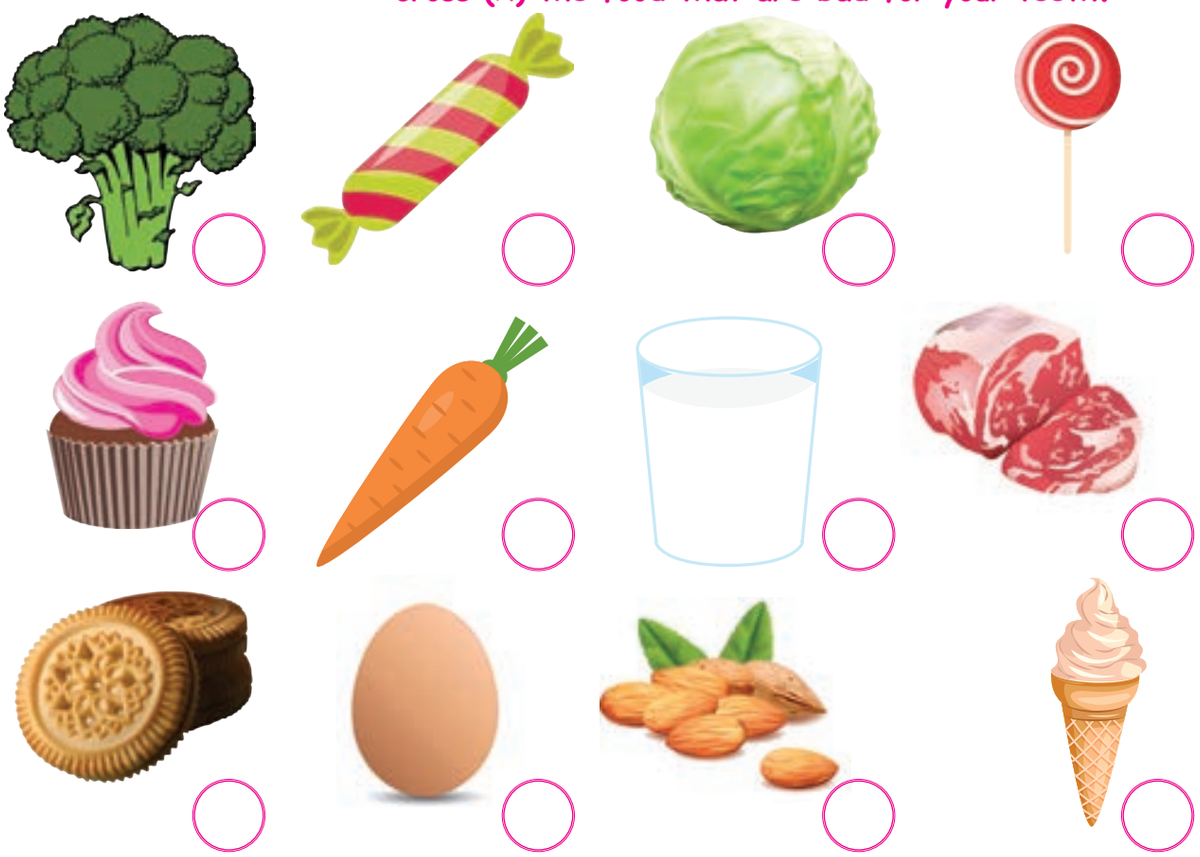

6. Neem Toothbrush

Researchers believe that use of neem toothbrushes is the reason behind the bright smiles and healthy teeth of Indian villagers. Indians traditionally chew neem twigs to keep their gums and teeth healthy.

Try to Answer

Tick (✓) the foods that are good for your teeth and cross (X) the food that are bad for your teeth.
