III. Good Touch, Bad Touch and Don't Touch

Try to Answer Is it Good touch or Bad touch? Why?

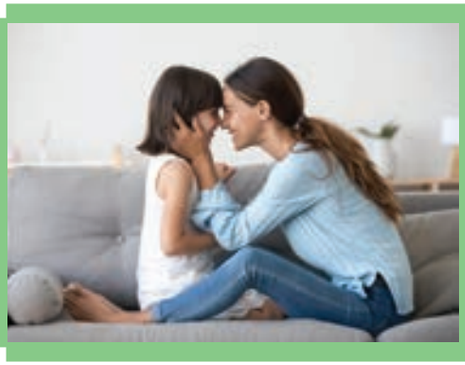

A

B

"Good touch" and "Bad touch" are the words most commonly used to explain what touch is okay and what is not okay. This helps us to understand when to tell a safe person about bad touch and ask for help. "Good touch" is a touch that cares for us or makes us feel safe. "Bad touch" is any touch that we don't want or makes us feel scare. Let us learn how to keep ourself safe.

Activities related to Good Touch:

- Parents' hug and kisses.
- Father pats you on the head.
- Friendly hugs by family members.
- Shaking hands.

Activities related to bad touch:

- Touching the buttocks and other private parts.
- Hitting, slapping, pushing, pinching or kissing.
- Activities that make you feel scared or nervous or ashamed.
- Dirty talk and dirty pictures.

MY BODY IS MY OWN. I never allow others to misuse it.

Never be afraid to shout and say "Don't touch me".

It is never your fault.
