EVALUATION

U7P5X4

I. Choose the correct answer.

1. Air is a _____.
   (a) Mixture (b) Compound (c) Complex
2. Percentage of Oxygen in air is about _____%.
   (a) 21 (b) 78 (c) 1
3. Root nodules of some plants contain _____.
   (a) Oxygen (b) Nitrogen (c) Neon
4. The major cause of air pollution is _____.
   (a) Waste (b) Smoke (c) Water vapour

II. Who am I?

1. I am a mixture of gases.
2. I give you oxygen.
3. I am not the supporter of burning.
4. You can help me to decrease pollution by riding on me.

III. Write 'True' or 'False'.

1. Plants need nitrogen for their growth.
2. Air is made up of oxygen only.
3. The gas used for burning things is Argon.
4. Carbonated drinks are bad to health.

IV. Math the following.

1. Nitrogen	-	Air pollution
2. Balloon	-	Smoke and fog
3. Smog	-	78%
4. Lung cancer	-	Air

V. Fill in the blanks.

1. Air is a mixture of many _____.
2. Amount of carbon dioxide in the air is _____%.
3. We inhale _____ gas.
4. _____ is used in fire extinguishers.
