ROBINSON CRUSOE

Robinson Crusoe was a brave young man. He loved **adventures**. When he was nineteen years old, he left his home and took travel in the sea. One day, his ship started to sink because of a great storm. Robinson managed to swim to an island. When he reached the island, he was so tired that he just slept on the sand. When he woke up, he found a little dog next to him. They both were all alone in that place.
