My Body

Unit 1

Learning Objectives

After learning this lesson, students will be able to

- identify and describe the internal organs of humans.
- list out the main functions of the internal organs.
- differentiate the types of teeth.
- appreciate the importance of oral health.
- become aware of good touch and bad touch.

QDYUS

Let us Recall

There are some body parts hidden in the table given below. Can you find them?

Y	A	M	Y	E	R	D
H	C	L	Q	A	I	L
A	P	K	S	R	P	E
N	O	S	E	S	H	G
D	O	H	E	A	D	H

I. Internal Organs

There are some body parts such as eyes, nose, ears, hands and legs that we can see. Such parts are called **external organs.**

There are some body parts such as stomach,lungs and heart that are inside our body. We are unable to see them. These body parts are called **internal organs.**

Let us learn more about these parts now.
