

Think and Say

Teacher: Yesterday I was walking back from the school. I found some people working to lay the road. I found some items in that place. Can you say something about that place and the machines that were used there?

When can we say that work is done or not?

Two main conditions are needed for work to be done.

- A force should act on an object.
- Object should move from one place to another.

When the force acting on the object makes it move, **work** is said to be done.

Try to Answer

Observe the picture and put a tick (✓) if work is done and put a cross (x) if work is not done.

Let us Do

Mention whether work is done or not in the following activity.

S. No	Activity	Work done or not done
1.	Pushing the door	
2.	Holding a doll	
3.	Sitting in a bus	
4.	Pushing a wall	
5.	Digging soil
